PARTICIPATED IN UNIQUE **BLIND GUIDED CAR RALLY**

The Leo Club of Bhuj Rainbow participated in a unique Car Rally **organized by the Lions Club of Bhuj Kutch Sight First.**

This rally was very special and different from regular car rallies. *In this event, a blind person sat in the front co-passenger seat and guided the driver throughout the route. The driver had to drive the car strictly according to the instructions given by the blind guide, including route direction, speed control, and time management.*

The rally route included five checkpoints, where participants had to reach within the decided time limits. Based on overall performance and time accuracy, 1st, 2nd, and 3rd positions were declared. It was a great and eye-opening experience for our members to participate in this rally. We were truly surprised and inspired to see that the entire event was planned, managed, and executed by blind individuals, and it turned out to be a tremendous success.

This rally was organized as a fund-raising project to support mentally and physically challenged children, which made the event even more meaningful and noble.

We appreciate the efforts of the Lions Club of Bhuj Kutch Sight First for organizing such an inspiring and impactful event. This experience strengthened our respect for inclusivity, confidence, and true leadership.
